**Haskap Canada Association and  
The University of Saskatchewan Fruit Breeding  
Program**

4 May 2017

Dear Colleague,

We are pleased to invite you to the 1<sup>st</sup> Annual Scientific Symposium for Haskap Research and Development, to be held on Friday, July 20, 2017, in conjunction with Haskap Days, hosted by the University of Saskatchewan, from the 19<sup>th</sup> to 21<sup>st</sup> of July, at the University of Saskatchewan campus in Saskatoon, Saskatchewan. We are writing to confirm your participation in this event, as a speaker, participant in the round table discussions, or attendee at the research lectures. Please find the attached registration forms for the symposium and Haskap Days, including tours etc.

This is the only major conference of its type, featuring cooperation among Canada's foremost Haskap researchers, producers, policy-makers and enthusiasts. The theme of the symposium is "Let's Begin". In order to begin moving forward in the areas of research most desperately needed for the Haskap industry we need to bring all the stakeholders together and establish the groundwork. The symposium will enrich our knowledge and complement our capacities for establishing new standards by the sharing of scientific research, management strategies, program development, and field experiences.

Besides the regular sessions held at the Symposium, we will feature a special round table discussion for producers, to address areas of concern most critical for research, and invite industry investment in the scientific research projects. Unfortunately, we do not have any major sponsors and partners for this year's event, so we are unable to subsidise speakers' expenses. Hopefully this will not be the case in future.

Your participation in the planned symposium and Haskap Days activities is critical to the success of our industry. I look forward to seeing you in Saskatoon.

Sincerely,

**Marg Sullivan, President  
Haskap Canada Association**

# Haskap Days 2017

## Speaker Application

The University of Saskatchewan Fruit Program and Haskap Canada Association are partnering to host Haskap Days 2017. The Haskap Days Planning Committee would like to invite you to present your research findings, experiences and industry perspectives. The Committee will select and schedule all presentations and will contact you to confirm your talk. There are two events to which the Committee invites you to participate – Haskap Research and Science Symposium (Friday, July 21) and the University of Saskatchewan Tour Day (Thursday, July 20).
